BeSmooth
peripheral

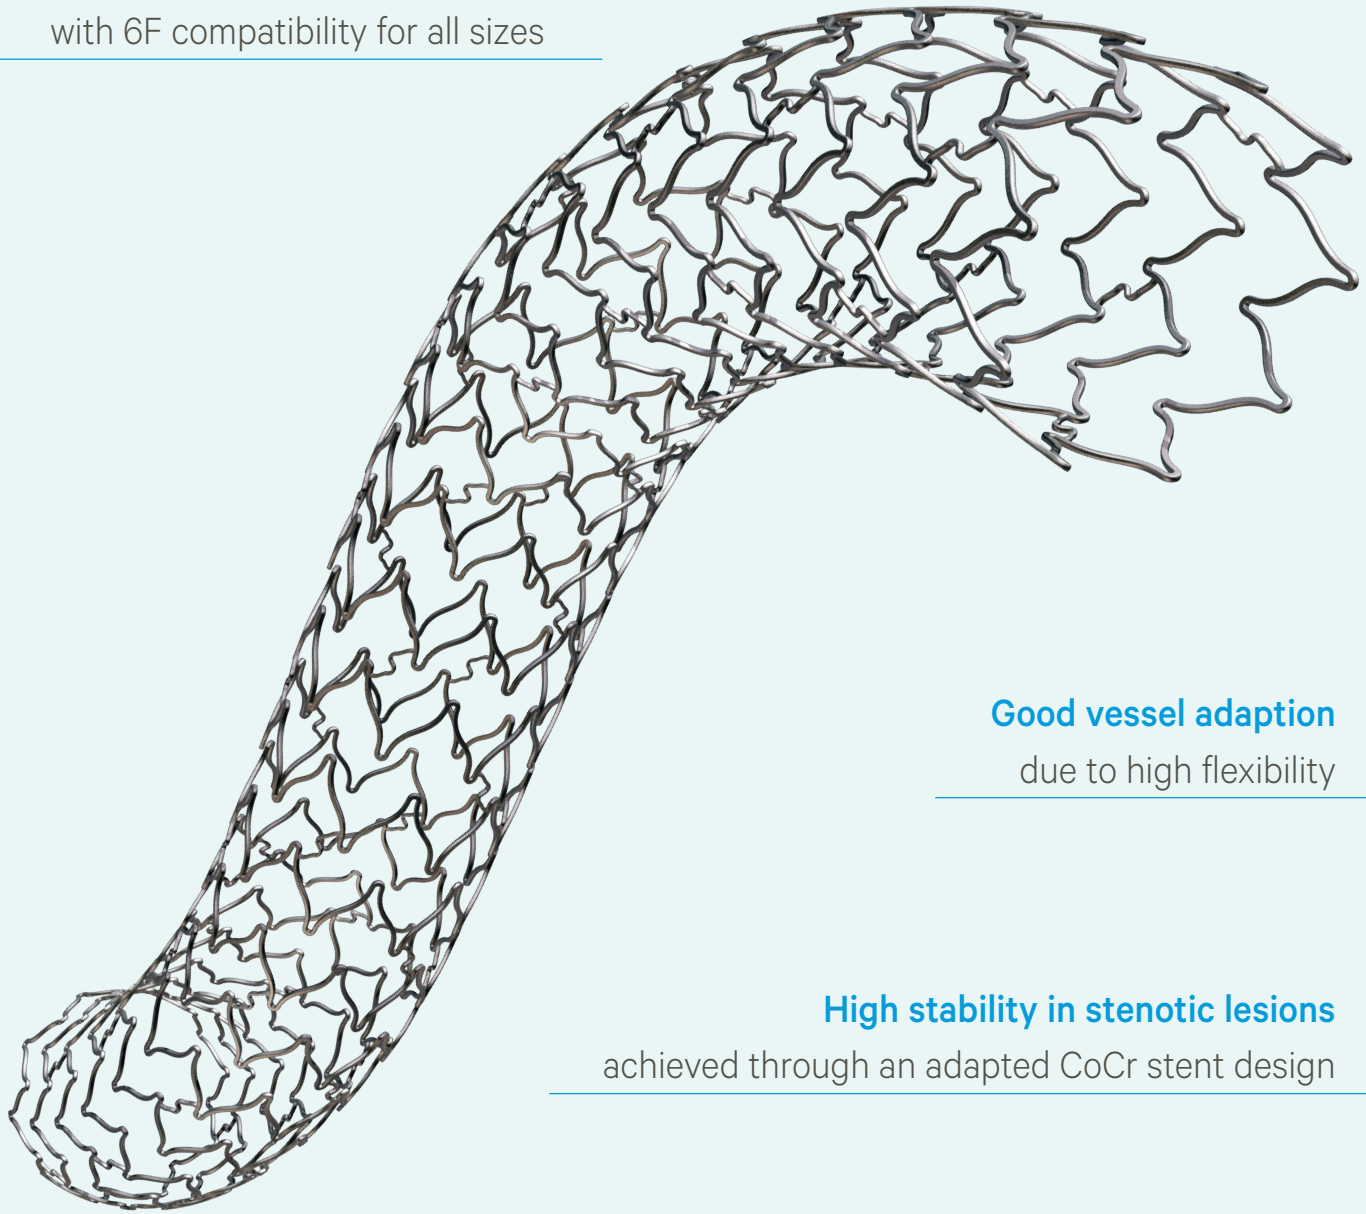
Bentley

The allrounder for daily use

Treatment of peripheral stenotic lesions demand various product characteristics. With its optimized stent design combining flexibility and the stability of an ultra thin CoCr scaffold, the BeSmooth offers you a solution for all your needs.

Low profile access

with 6F compatibility for all sizes



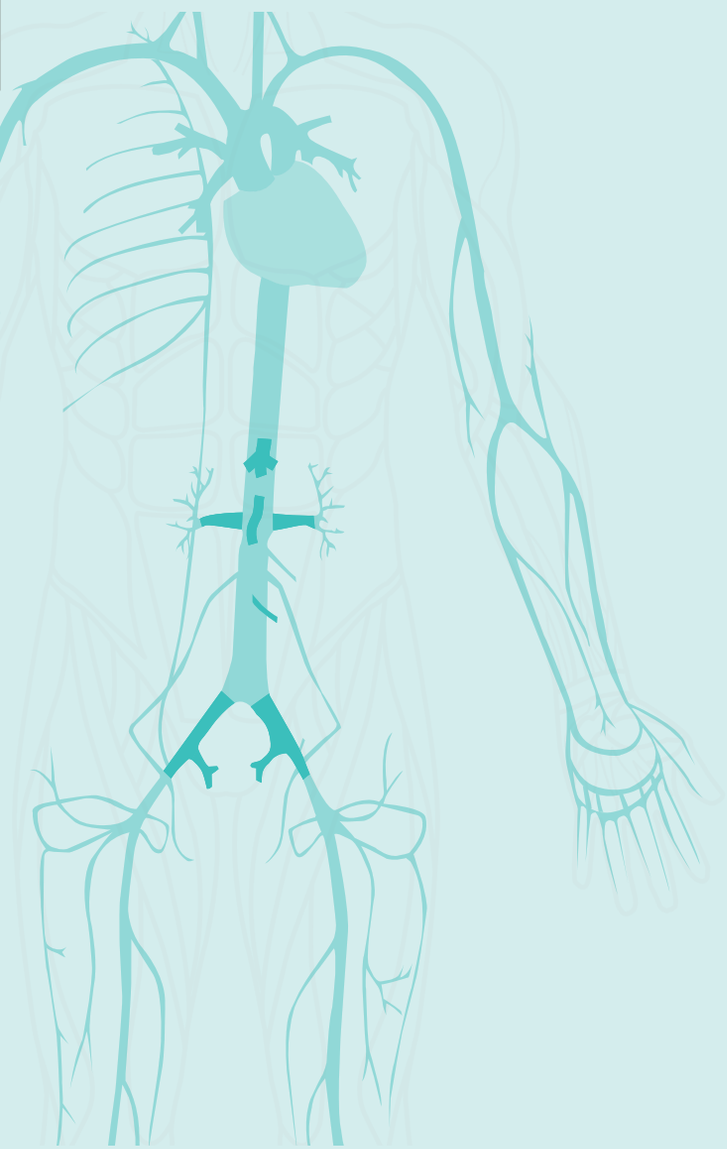
Good vessel adaption

due to high flexibility

High stability in stenotic lesions

achieved through an adapted CoCr stent design

THE SMOOTH ONE



Product specifications

Stent Material	CoCr (L-605)
Introducer Sheath Compatibility	6F
Delivery System	0.035" OTW
Catheter Shaft Length	75 and 120 cm
Expanded Stent Diameter	5.0, 6.0 mm [1] 7.0, 8.0 mm [2] 9.0, 10.0 mm [3]
Nominal Stent Length	18, 23, 28, 38, 58 mm [1] 18, 23, 27, 38, 57 mm [2] 18, 23, 28, 38, 57 mm [3]
Shelf Life	3 years

[1] SV= Small Vessel Design, [2] MV= Medium Vessel Design, [3] LV= Large Vessel Design

Three different stent designs ensure ideal technical stent performance.

Indication

The BeSmooth Peripheral Stent System is indicated for the treatment of de novo or restenotic atherosclerotic lesions in protected peripheral arteries (i.e. iliac arteries: common, external, internal; visceral arteries: renal arteries, superior mesenteric artery, inferior mesenteric artery, celiac trunk).

Be innovative

We focus on the development of unique products and strive to find creative answers to questions posed by the healthcare industry

Be dedicated

A marked customer focus and compliance to international standards help us to uphold unsurpassed quality in products and services

Be responsible

We care for better health, our region and the environment. Every member of our team is motivated to make a vital contribution to the quality of life

Be effective

We strive for time- and cost efficient solutions to satisfy the versatile interests of our customers and patients worldwide
