NEPTUNO® Vascular Guidewires

Precision, Support, and Control in Peripheral Interventions

Reliable performance, balanced support, and optimized radiopaque visibility.

Configurations

NEPTUNO® **STANDARD**	NEPTUNO® **SUPER STIFF**	NEPTUNO® **EXTRA STIFF**
General use in standard procedures	Enhanced support for device delivery	Maximum stiffness for tortuous vessels
Balanced support and smooth navigation	Improved stability during complex procedures	Superior control in challenging anatomies

Technical Specifications

- J-tip in all configurations
- Standard diameter: 0.035"
- Stainless steel core with PTFE coating

Model	Stiffness	Code	Length (cm)
NEPTUNO® **STANDARD**	Standard	30-150-35	150
		30-260-35	260
NEPTUNO® **SUPER STIFF**	Stiff	30-260-35-01	260
NEPTUNO® **EXTRA STIFF**	Extra stiff	30-180-35-65	180
		30-260-35-65	260
