NEPTUNO® HYDRO

Hydrophilic Vascular Guidewire

Smooth Navigation Through Complex Vascular Anatomy

HYDROPHILIC COATING

Lubricious surface designed to reduce friction during intravascular navigation.

NITINOL CORE

Flexibility and shape recovery during device manipulation.

ANGLED TIP

Configuration designed to facilitate vessel selection and access during peripheral procedures.

OUTER DIAMETER	0.035”
LENGTH	150 cm / 260 cm
TIP CONFIGURATION	Angled
FLEXIBLE TIP LENGTH	2 cm
CORE MATERIAL	Nitinol
COATING	Hydrophilic
STIFFNESS	Standard

PRODUCT CODE	150 cm	37-150-35
	260 cm	37-260-35

Flexible distal tip designed for atraumatic navigation.
